

# Website Training Cheat Sheet (v1.0)

## How do I sign in to make a post?

1. Scroll to the bottom of ANY page and click “**Editor Login**” (bottom right)

2. Enter your username (**your email**) and your **password** and click the blue “**Log In**” button. If you forget password just click “Lost your Password?”

This login is for site editors only (those making posts, etc.) If you are just trying to access member files then [click here](#) and follow the instructions.

Username

Password

← Back to Unitarian Universalist Society of Sacramento

## How do I sign out?

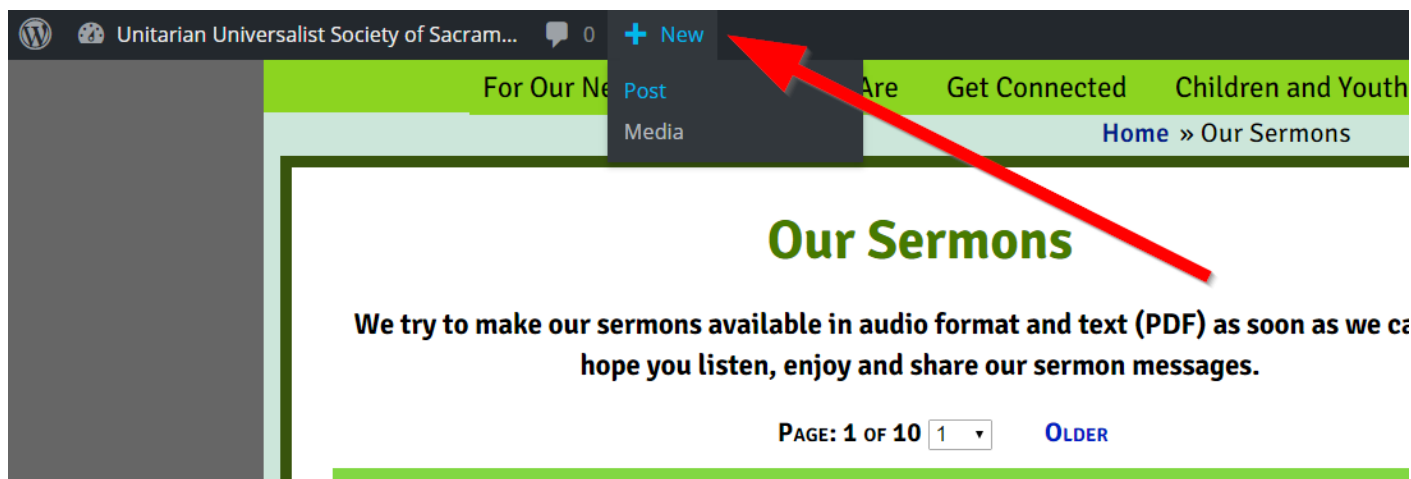

\* It's a good idea to sign out when not posting because the site is much faster to browse when signed out.

On the top right of any page (in the wordpress toolbar) HOVER over “**Howdy, Your Name**” and then click “**Log Out**”

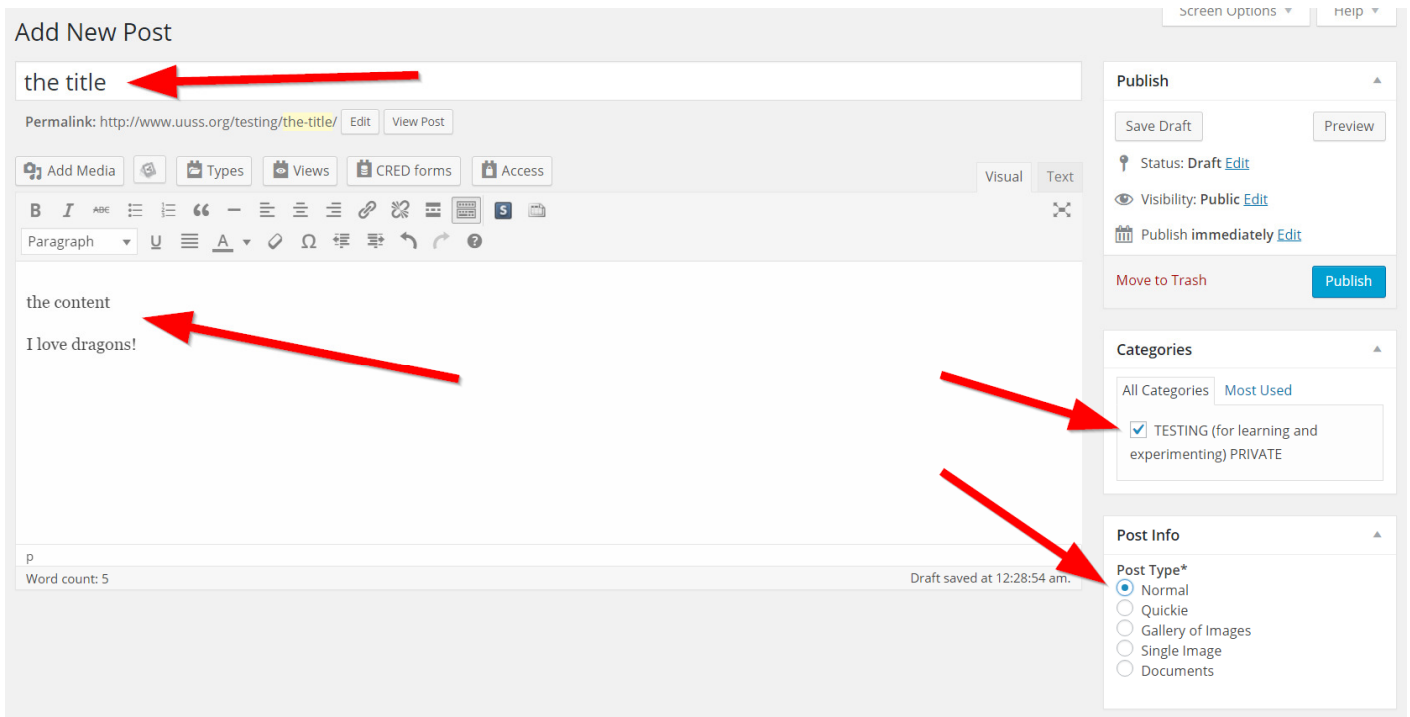

## How do I make a post for my group?

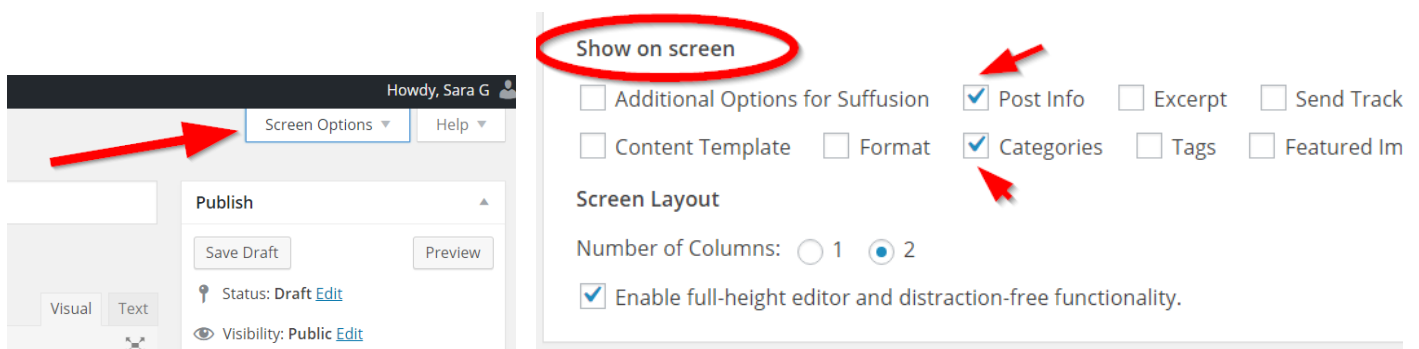

1. On the top of any page (in the wordpress toolbar) click “+New” to start a new post.

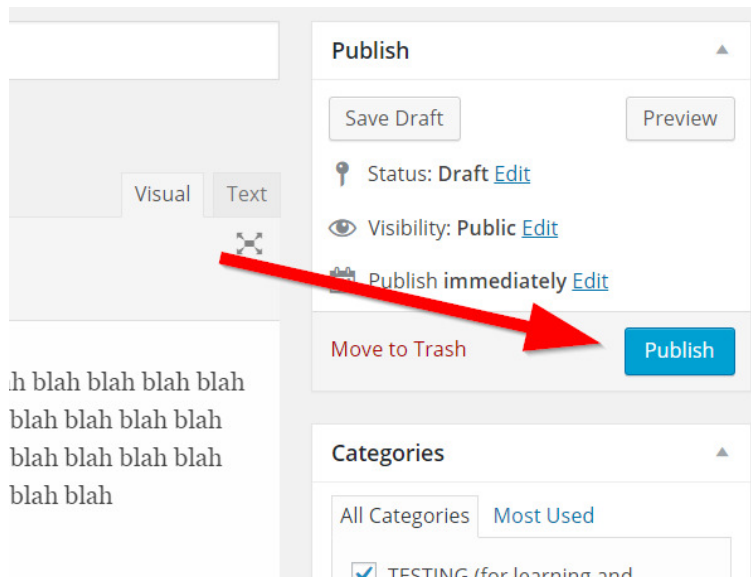

2. Fill in these FOUR things: the **TITLE**, the **CONTENT**, the **GROUP** (category), the **TYPE** of post. If you forget to select some of these it won't let you publish!

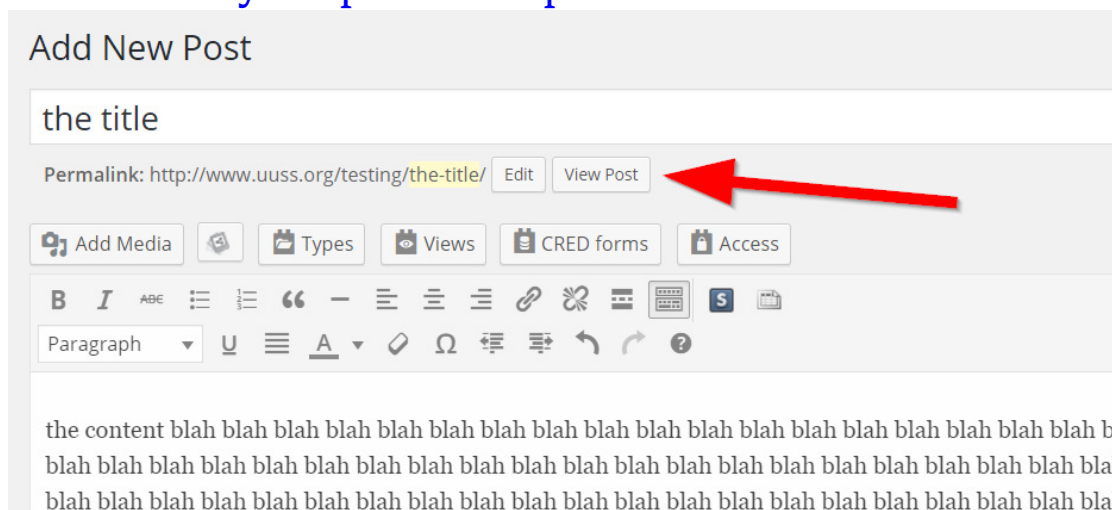

\*\*\* If your “Add New Post” screen does NOT look like the above (you have extra boxes, etc.) then follow these instructions: 1. Click “**Screen Options**” (near top right) to open screen options then 2. Make sure **ONLY Post Info** and **Categories** are checked under “Show on screen” and 3. Click “**Screen Options**” again to close it. If your screen looks fine then **IGNORE** these instructions.

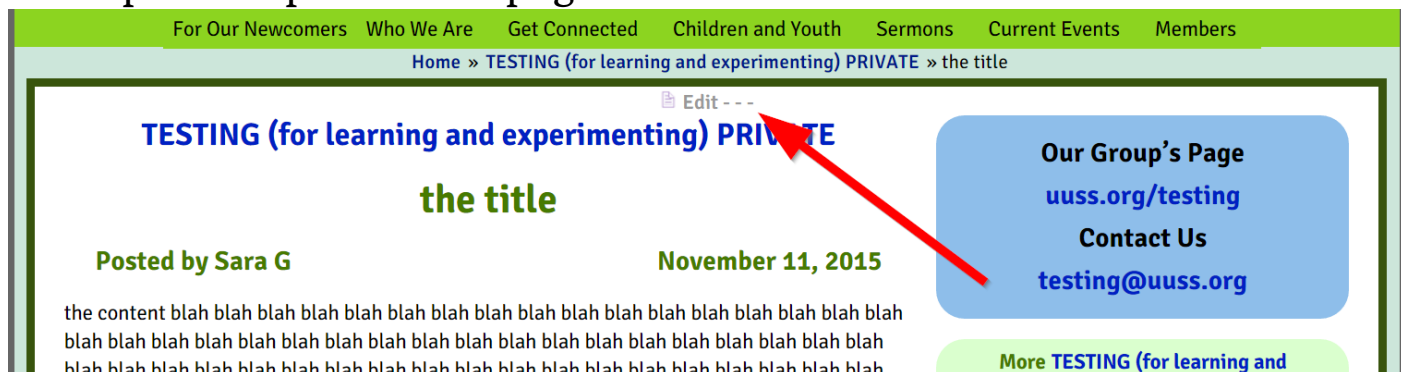

3. Click blue **“Publish”** button (in Publish box):

That’s it! To **VIEW** your published post click **“View Post”** under title:

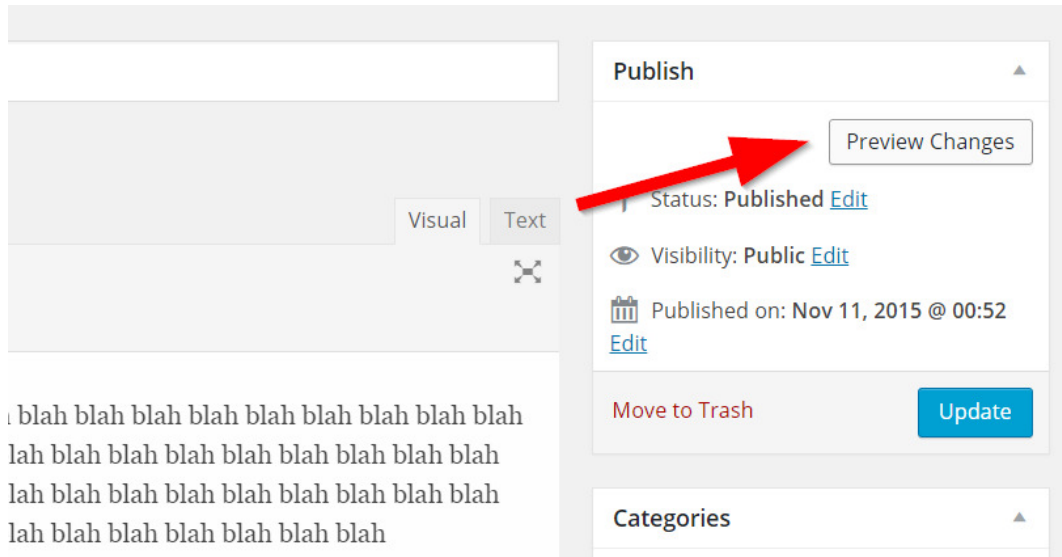

To **return to EDITING** an existing post just look for the **“Edit”** link near the top of the post’s web page and click it:

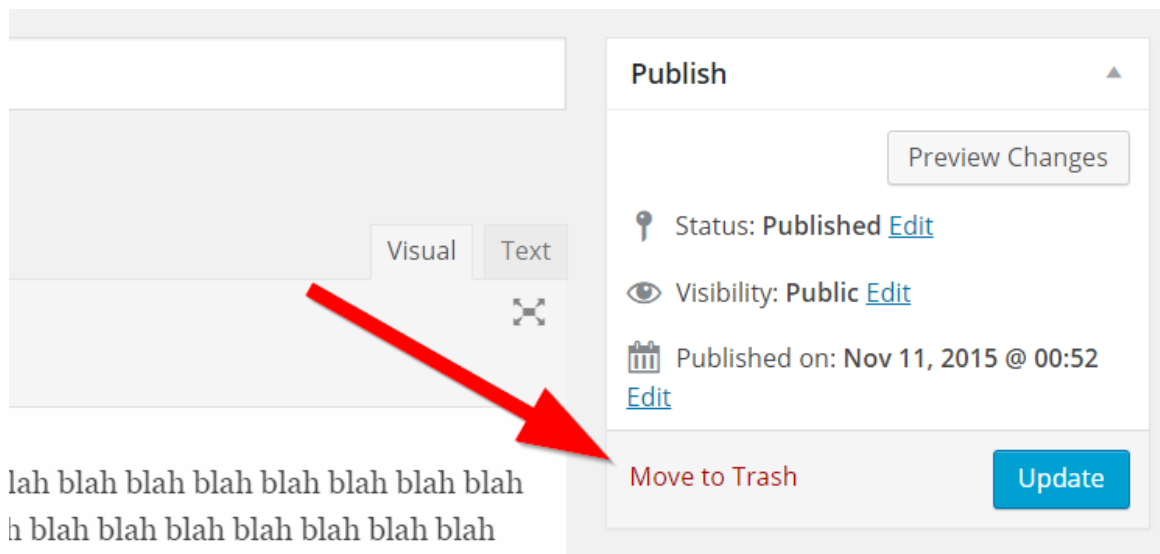

To **PREVIEW** a post while still editing click **“Preview”** (in Publish box):

\* not a bad idea before clicking the “Publish” button

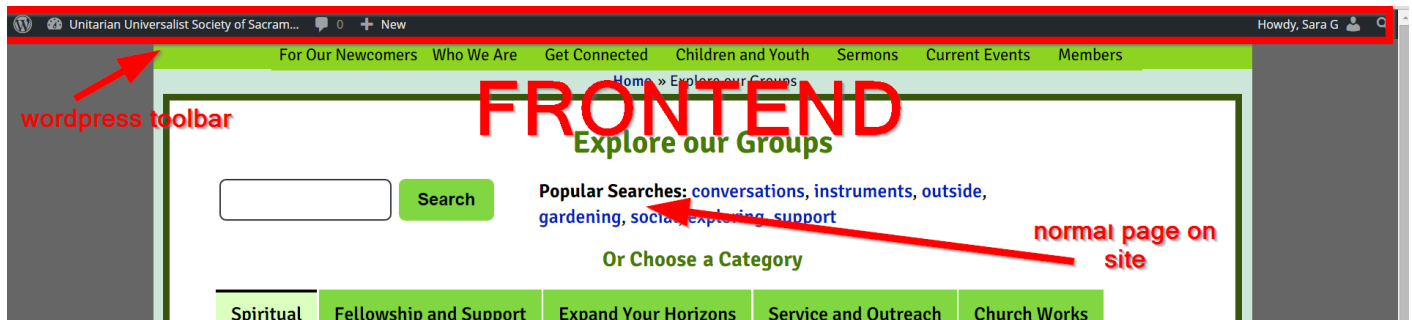

To **DELETE** a post click **“Move to Trash”** (in Publish box):

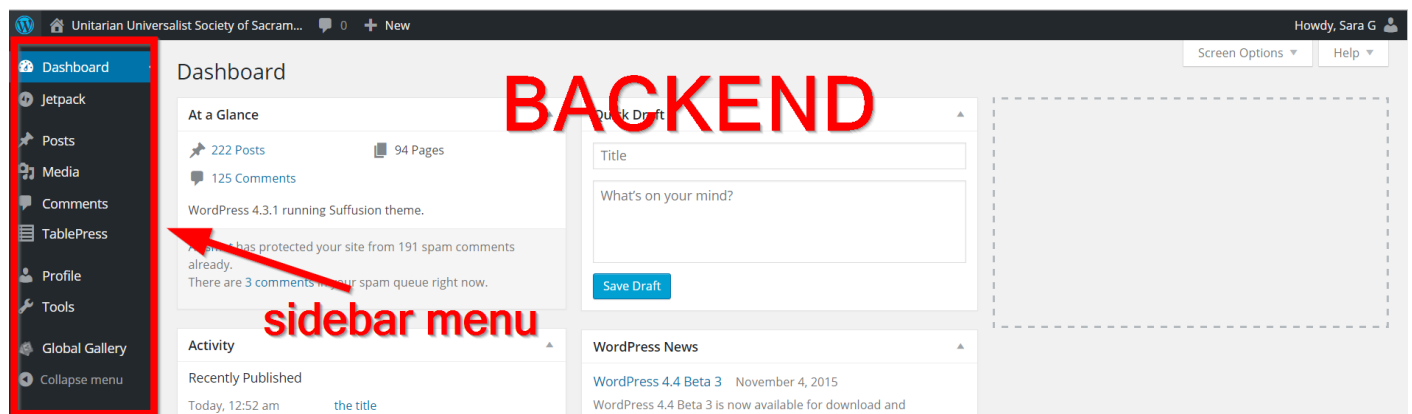

## BACKEND and FRONTEND

The FRONTEND of the site is when you are logged in and viewing our normal UUSS pages with the added wordpress toolbar along the top. The FRONTEND looks something like this:

The BACKEND looks, well, backendish. It has a sidebar menu among other things. The BACKEND looks something like this:

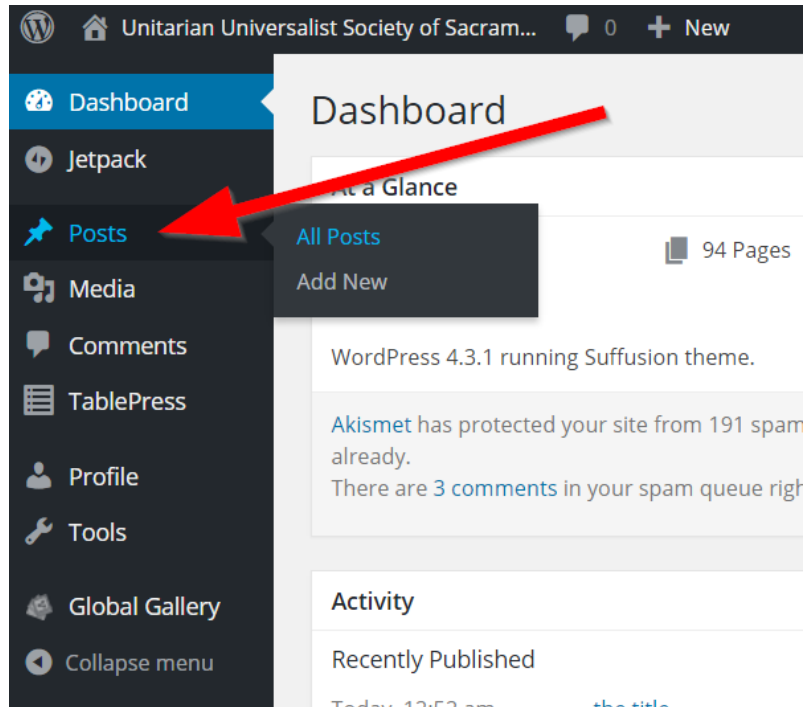

To SWITCH between the frontend and the backend click the name of the site "Unitarian Universalist Society of Sacram..." in the very top left:

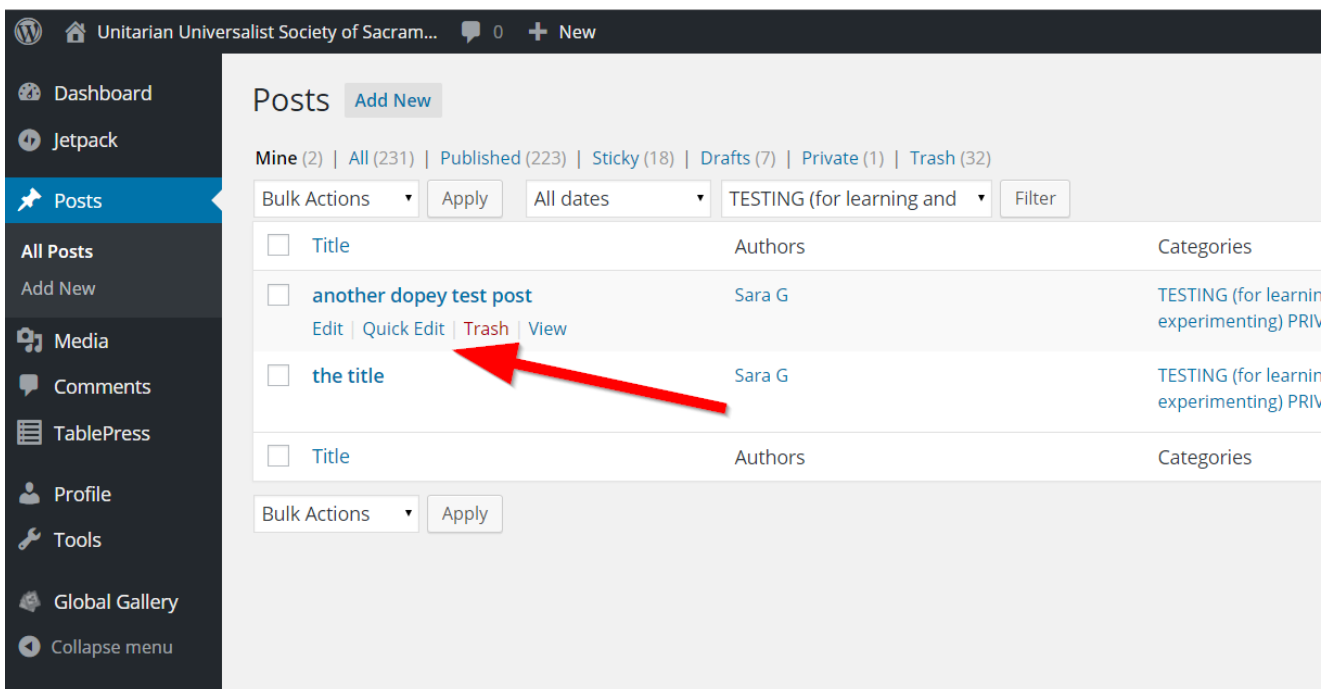

## How do I SEE ALL my posts?

1. Make sure you are on the **BACKEND** (see above).
2. On the sidebar menu (left side of screen) click **“Posts”**:

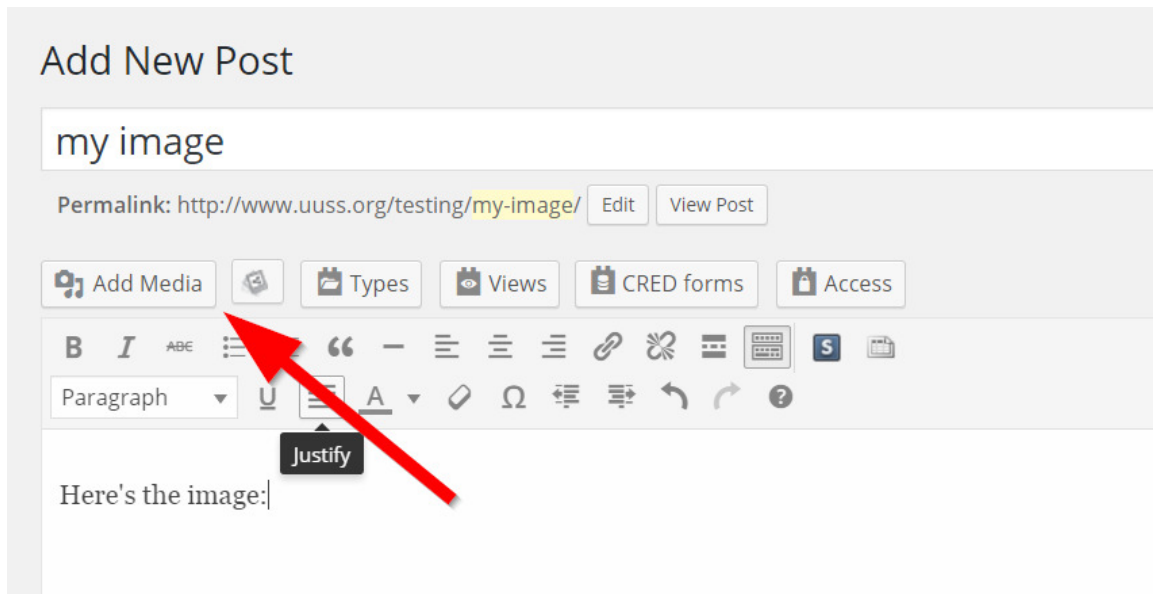

This will take you to a list of ALL your posts. When you hover over a particular post you can then click **“edit”**, **“trash”**, or **“view”** to EDIT, DELETE, or VIEW that post.

## How do I post an image?

\* if you want to create a photo gallery see below

Start a post (see above) and then **1.** Click “**Add Media**”

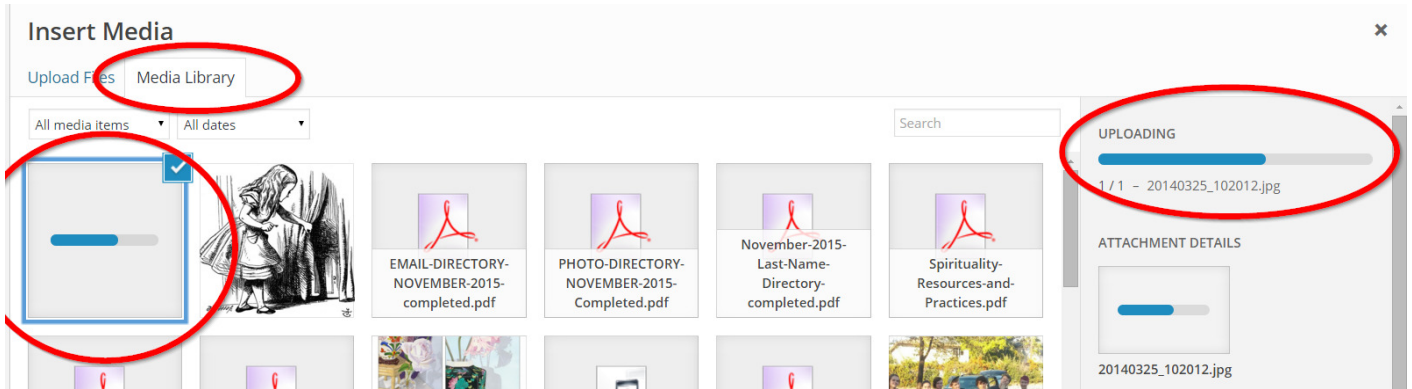

**2.** Make sure you are in the “**Upload Files**” section. If not click “**Upload Files**” to switch to it. **3.** Now **drag and drop your JPG image(s)** OR click “**Select Files**” to get a standard system file browser where you can select your image(s).

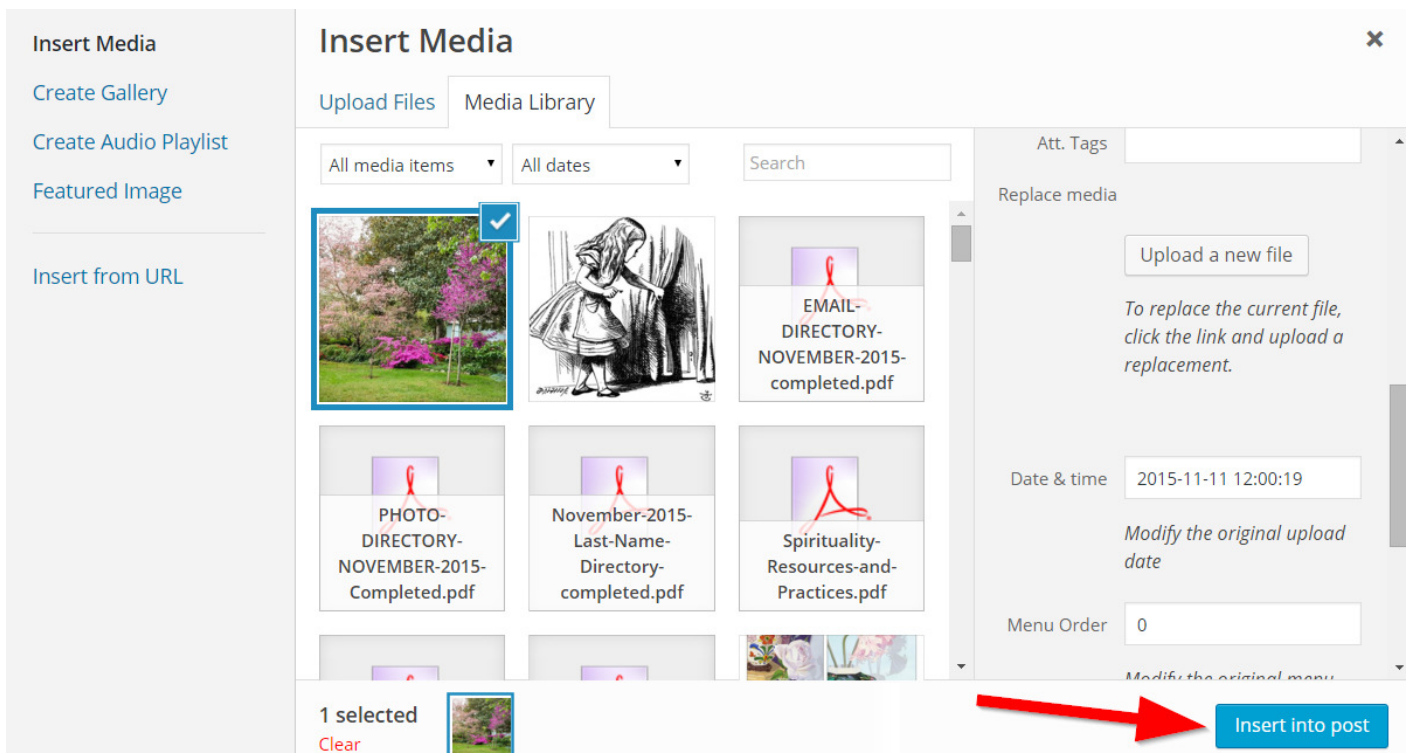

4. Once you drop or select your images you will automatically be switched to the “Media Library” and the image(s) will be uploading - be patient it might take a few minutes!

5. The uploaded images should be automatically selected after upload, just click the blue “Insert into post” button!

6. Now you are back at the post editor. Make sure you have selected “**Single Image**” as the post type before you publish (in Post Info box).

The screenshot shows the WordPress post editor. At the top, there are tabs for 'forms' and 'Access', and a toolbar with icons for undo, redo, and help. The main content area displays a photograph of a garden with pink flowering trees. On the right sidebar, the 'Post Info' section is expanded, showing 'Post Type\*' with radio buttons for Normal, Quickie, Gallery of Images, Single Image (selected), and Documents. A red arrow points from the 'Single Image' option to the main content area.

When you publish a “Single Image” type of post it **looks like this in the feed:**

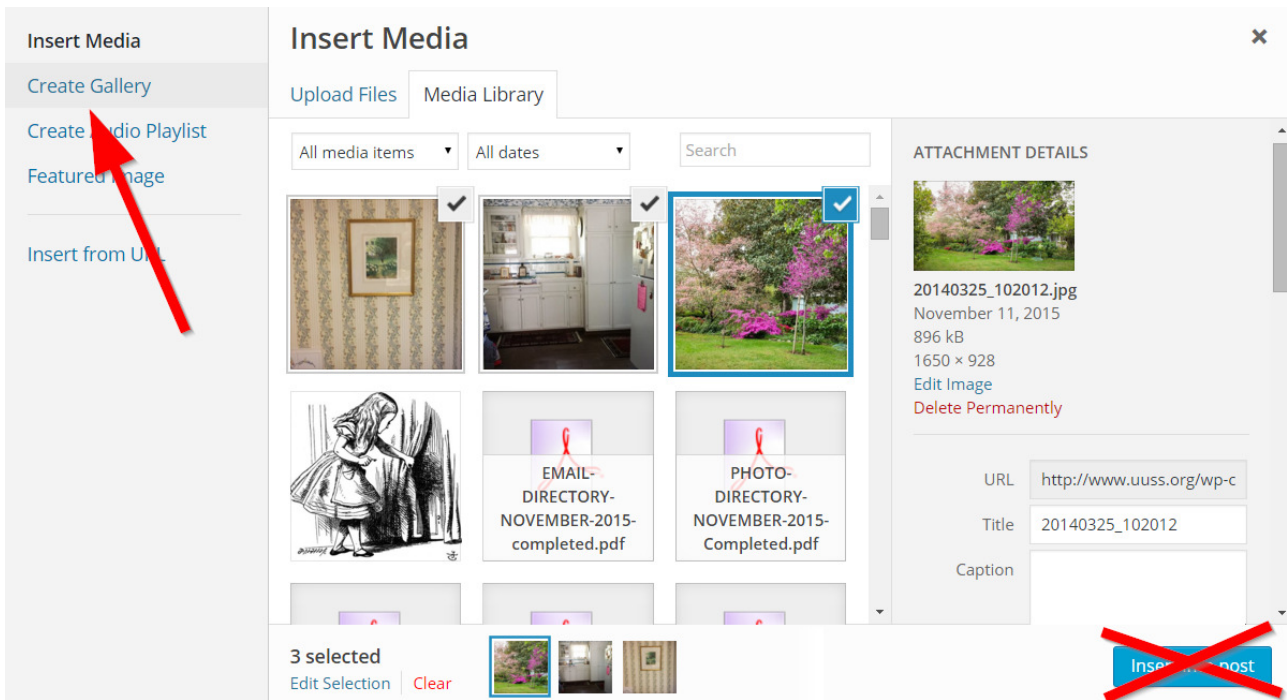

The screenshot shows a website feed with a green background. At the top, it says 'UUSS News and Updates' in green. Below that, there are two posts. The first post is titled 'Website Training this Sunday (Nov. 6th)' and has a date of '11/6'. A red arrow points to the date '11/6' with the label 'normal'. The second post is titled 'UUSS Presents Artist Sally Baker' and has a date of '11/6'. A red arrow points to the 'See More' button of the first post with the label 'single image'. The feed also includes a navigation bar with 'CLICK HERE TO SEE ALL UPDATES', 'PAGE: 1 OF 29', a dropdown menu with '1', and 'OLDER'.

Spiffy, eh?

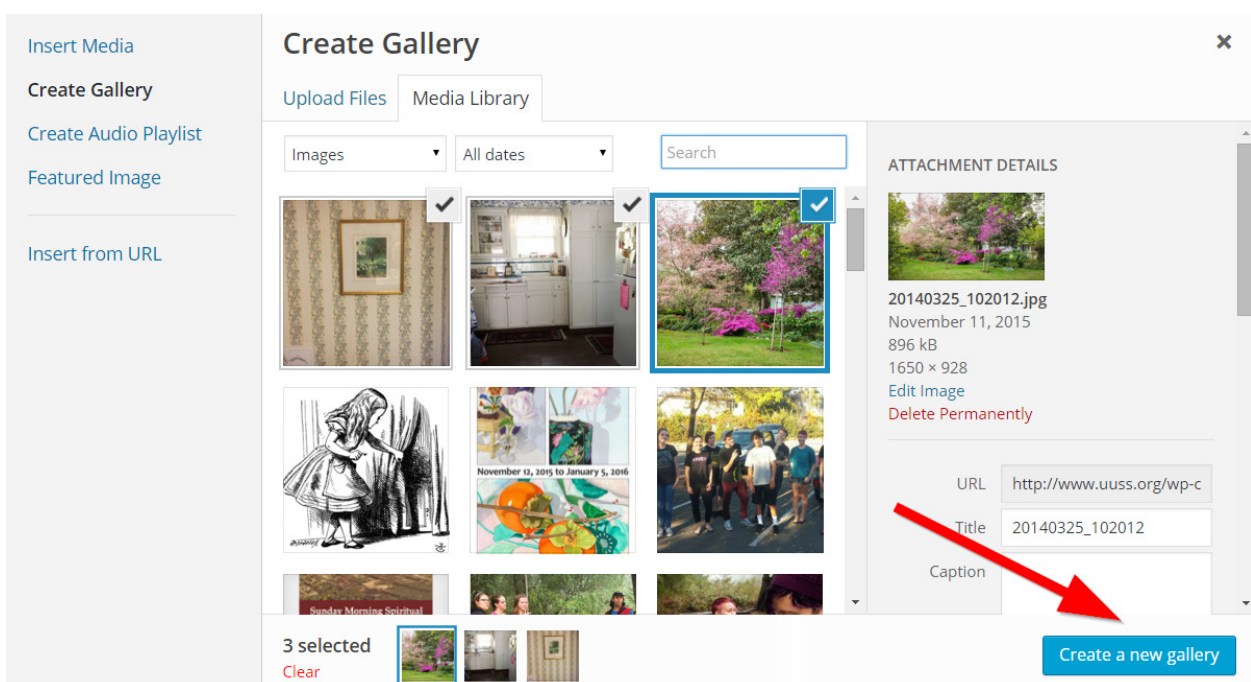

## How do I post a photo gallery?

First follow steps 1-4 in “How do I post an image” (see above) - instead of one image you can drag and drop multiple JPG images at a time.

5. Now INSTEAD of clicking “Insert into post” click “Create Gallery”

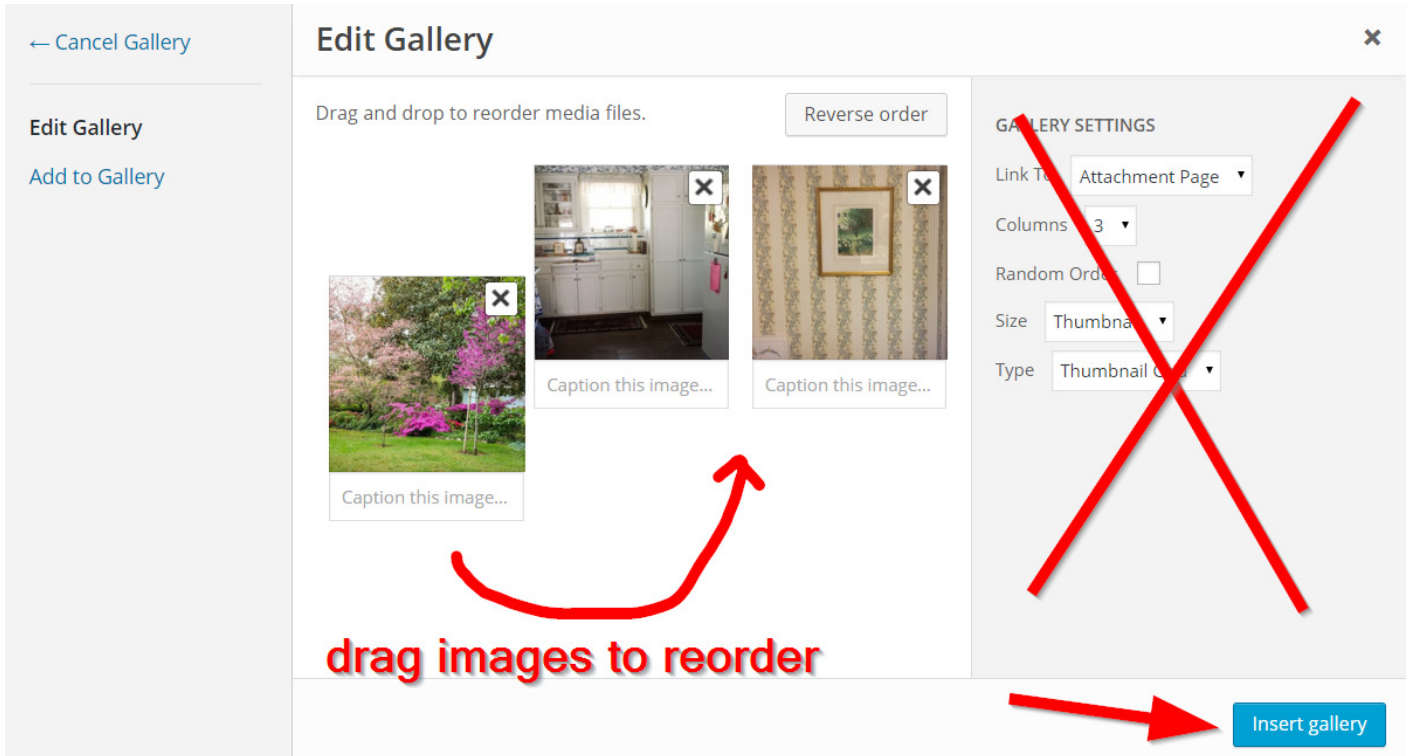

6. Click blue “Create a new gallery” button.

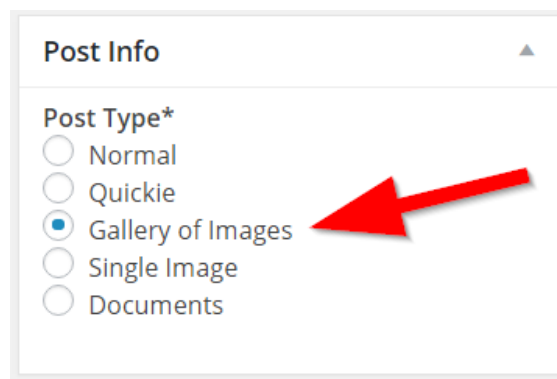

**7. Reorder the images** if you want (just drag them around). **IGNORE** the gallery settings on the right side\* and just click **“Insert gallery”** to finish.

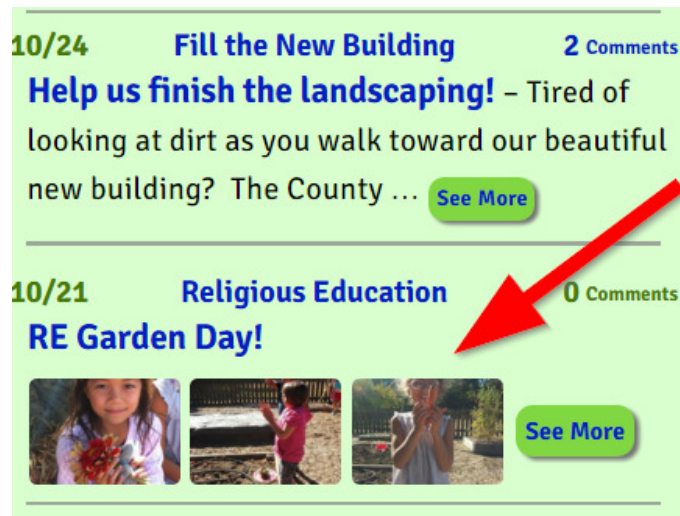

\* the gallery settings aren't used on our site because a gallery plugin overrides them

**8.** Now you are back at the post editor. Make sure you have selected **“Gallery of Images”** as the post type before you publish (in Post Info box).

When you publish a “Gallery of Images” type of post it **looks like this in the feed:**

How do I upload a picture of one of our ministers and grumpy cat?

Just find one of the **many** pictures of Roger with Grumpy Cat and upload it.

**THE END**
